dreaded goal in therapy! It's hard to elicit and not to mention it isn't a visual sound.

### **3 tips for eliciting the /r/ sound - Speech Solutions**

If the child is “dentalizing” the sound (letting the tongue touch his teeth when producing the sound), have him place the tip down below the bottom teeth or up towards the

that they're not able to say at all. This post will give you some ideas of how to elicit each American-English speech sound.

Teaching Sounds: What To Do

### **Teaching Sounds in Isolation to Children with Speech ...**

The most common label for the SH sound is the "be quiet sound." We visually cue by putting one

### **Mommy Speech Therapy**

If your child can already articulate the “t” and “sh” sounds, you can use these sounds to elicit the “ch” sound. Instruct your child to say the “sh” sound, but to hold his tongue on the roof of his mouth. Have him feel the built up pressure before he releases the air out of his mouth.

### **How to Teach the “Ch” Sound - Speech Buddies Blog**

Since the /ch/ sound is a combination of two other sounds, the /t/ sound and the /sh/ sound, a great technique to help your child make the sound is to have them say the /t/ and the /sh/ sounds back to back. For example, the phrase “meet ship” begins to sound like “me chip” the faster you say it.
