The Vauxhall Corsa antilock brake light should illuminate for a few seconds when the ignition is switched on and soon extinguish. If the light does not go out or comes on whilst driving, there is a fault with the vehicle ABS system. Normal brakes will continue to work although a reduction in control under heavy braking may be observed.

P1682 is a diagnostic trouble code that

Download Free Opel Corsa Light Switch Guide

indicates that your Opel Corsa's ignition switch is having a voltage problem. It is typically caused by a faulty ignition switch, although there can be other causes as well. There are two "circuits" to the ignition switch. The first one goes to the ECM through the throttle actuator control.
