Viking Range Troubleshooting Guide

Your Viking oven won't heat up if it won't even turn on. Whether you have a gas or electric oven, the first step to troubleshoot an oven that won't turn on is to check the breaker box. A power surge, for example, may cause the circuit breaker switch to trip by moving it to the "off" position.

How to Troubleshoot a Viking Oven | Hunker

Unscrew the lid and carefully rise it in order to get access to the burners. After you pull off the burners examine them carefully and make sure there is no visible damage. Check the socket for burns or corrosion as well. Swap the burners and if needed sockets, close the lid and try turning on the appliance again.
