Wireshark Lab Ssl Solution

Lab Exercise - SSL/TLS Objective To observe SSL/TLS (Secure Sockets Layer / Transport Layer Security) in action. SSL/TLS is used to secure TCP connections, and it is widely used as part of the secure web: HTTPS is SSL over HTTP. The principal motivation for HTTPS is authentication of the accessed website and protection of the pri-

For these labs, we'll use the Wireshark packet sniffer. Wireshark is a free/shareware packet sniffer (a follow-on to the earlier Ethereal packet sniffer) that runs on Windows, Linux/Unix, and Mac computers. The Wireshark labs below will allow you to explore many of the Internet most important protocols.

Wireshark Lab Solution: DHCP . 1. DHCP messages are sent over UDP (User Datagram Protocol). 2. The port numbers are the same as the example in the Lab. 3. The Link Layer address of my workstation is: 00:90:4b:69:dd:34
Bootstrap Protocol Frame 2 (342 bytes on wire, 342 bytes captured)

Wireshark Lab Solution: DHCP

Answer: According to the screenshot below, the sequence number of the SYN_ACK segment sent by gaia.cs.umass.edu to the client computer in reply to the SYN is 0. The value of the acknowledgement field in the SYN_ACK segment is determined by the server gaia.cs.umass.edu. The server adds 1 to the initial sequence number of the SYN segment from the client computer.

Open the ethernet-ethereal-trace-1 trace file in <http://gaia.cs.umass.edu/wireshark-labs/wireshark-traces.zip>. The first and second ARP packets in this trace correspond to an ARP request sent by the computer running Wireshark, and the ARP reply sent to the computer running Wireshark by the computer with the ARP-requested Ethernet address.

Solution to Wireshark Lab: Ethernet and ARP

5 3. Ask your colleague for their IP address e.g. 193.61.191.71 4. In Windows, open a command line window by typing <WINDOWS KEY> + R and then type cmd in the run dialog box which should popup. 5. Type ping theiripaddress e.g. ping 193.61.191.71 6. Return to Wireshark and stop the capture by selecting stop in the Capture menu or the stop capture icon underneath main menu labels.
